THIRUMURUGAN R

Java Developer

Arani, Thiruvallur, Tamil Nadu | +91 8056519754 | thirumuruganravi7723@gmail.com | linkedin.com/in/thirumurugan-ravi-6972a1346 | github.com/thirumuruganravi

PROFESSIONAL SUMMARY

Enthusiastic Java Developer with knowledge of Java, Spring Boot, Hibernate, and REST APIs. Skilled in frontend technologies such as HTML, CSS, JavaScript, and React.js. Familiar with MySQL database management and Git/GitHub for version control. Eager to develop efficient, user-friendly applications and contribute to real-world software development projects.

TECHNICAL SKILLS

- Languages: Java, SQL, basics of JavaScript
- Frameworks: Spring Boot, Spring MVC, Hibernate/JPA
- Databases: MySQL, Oracle (basic)
- Concepts: OOP, Data Structures & Algorithms, Multithreading, Collections Framework, Design Patterns, Microservices (basic)
- Tools: Maven/Gradle, Git/GitHub, Postman, JUnit, Eclipse/IntelliJ IDEA, Docker (basic)

EDUCATION

B.E. – RMK Engineering College **2022 - 2026**
RMK Engineering College

Higher Secondary Certificate (12th Grade) **2021 - 2022**
Government Higher Secondary School

EXPERIENCE

Employee Management System **Tech Stack: Java, Spring Boot, React.js, MySQL, REST API**

- Developed a full-stack employee management application with employee record management features
- Created REST APIs using Spring Boot to support employee data operations
- Connected the application to MySQL and used Hibernate/JPA for database operations
- Built a responsive React.js interface to interact with backend services

E-Commerce Shopping Cart **Tech Stack: Java, Spring Boot, React.js, MySQL**

- Developed shopping cart features for an online shopping application
- Implemented backend product and order operations using Spring Boot
- Connected frontend components with backend REST APIs and MySQL data storage

Student Management System Tech Stack: Java, Spring Boot, MySQL, REST API

- Created REST endpoints to manage student records and related information
- Implemented create, read, update, and delete operations with Spring Boot
- Used MySQL for data storage and tested API requests using Postman

INTERNSHIP

Web Development Intern **Nov 2023 - Dec 2023**
InternPe

- Created and styled responsive web interfaces using HTML, CSS, and JavaScript
- Worked on frontend development tasks and improved page layouts and usability
- Used development tools and applied web development fundamentals during internship tasks

CERTIFICATIONS

- Java Programming – Infosys Springboard
- React Basics – Great Learning Academy
- SQL Basics – Simplilearn SkillUp

ACHIEVEMENTS & EXTRA-CURRICULAR

- Developed Java full-stack projects using Spring Boot, React.js, and MySQL
- Practiced object-oriented programming and REST API development concepts
- Applied CRUD operations and database integration in project development
